Our Next Meeting

Our next meeting is Sat. Feb 14, 2015 (Valentine's Day)
10:30 A.M. (pre-meeting activities – 9:00 A.M.)
Pleasanton Senior Center

From The Pres

By Bob Kehl

Here we are starting another new year of carving for the Tri Valley Carvers. Our January meeting agenda included elections of officers. I am pleased to say that all of the officers have agreed and have been elected to serve another two-year term. A new officer, Paul Fackler, has taken a new position in the officers as the Correspondence Secretary. This new position relieves some of the secretarial load from our Secretary, Joan Cousins. We also have continuing for editor of the club newsletter, webmaster, CCG Director, CCG advisor, show chairman, and assistant show chairman. Thank you all for your support to our organization. It is with this kind of support from our members that we will continue to keep our club growing strong and promoting wood carving. Congratulations to all the new officers and volunteers.

The annual planned budget for 2015 has been completed! Mike Pocha & I divided the budget into two categories, as was done in previous budgets, separating the regular club operating expenses from show incomes/expenses. Looking at the total 2015 plan, we should come out the end of the year with a near flat minus \$109 keeping us good as a nonprofit organization. The positive side of the budget still provides for growth in membership and promoting carving in the community with our annual show and teaching. Some of the money comes from an assumed increase of 10% in new members, better sales of soap kits, and donations from our school teachings. The net show dollars comes out fairly flat with similar income/expenses. All in all, the bottom line for the budget comes out closely balanced, giving us a good start for the year in forecasted monies and some goals to work on the rest of the year. Details are shown in the comments as distributed in the attached 2015 budget.

During the past week, Paul Fackler, Merv Cornelsen, Mike Pocha, Dave Boles, Rose Rodriguez, Rick Jensen, and I are teaching wood carving at a new Charter middle school in Oakland. We have been working on a River Otter as a project. The kids also may, as time permits, work on other projects. In order to bring these projects more to the attention of the public, we are providing admissions logistics and costs for

entering their projects at the Alameda County Fair again this year. Check out the details of this class in the "Bulletin Board" and the pictures in this newsletter.

We have several items to review this month, as we prepare for upcoming events:

Raffle items for this year's show: Our focus is donations from members or business on 5 items, TOOLS, CARVINGS, BURNINGS, TURNINGS, GIFT BASKETS/CERTIFICATES, as we did last year. We must start receiving commitments for these items by the meeting March 14th, so we can have pictures/descriptions to start advertising in the website and with hand outs at our various demos. The success of this process depends on selling tickets early on in the year before and during the show. Items made and donated by the members should be ready for display at the Fair. Please contact Bill Bender with your commitments by the March meeting.

The Oakhurst Rendezvous April 19 – 26th: The Rendezvous is a week of real fun for all carvers. Entry forms and information will be available at the business meeting. We will have two tables available for presentations and selling our soap carving kits. Paul indicates we have 12 kits and plenty of materials ready for the start of a new year.

Birthdays!

So far, our records show just 1 member born in this month:

Mieko Tachibana
Happy Birthday!

If you were born this month, please tell our Editor, Mike Pocha (see front page for contact info).

[:] Video: Carving Native American Artifacts: Lydia and Bill Bender are sharing an extremely interesting video featuring excerpts of carvings by Fortunate Eagle. We will see how a ceremonial pipe is carved, plus the art of totem pole carving. The video will be shown during the first half of our Club meeting on Saturday, Feb. 14.

[:] East Bay Innovation Academy: The seven members of the “woodcarving faculty” conducted a week long carving class at the Academy last week. We carved daily for three hours and had the 16 very enthusiastic 11-12 year olds try their hand at carving a 4” baseball bat and the stylized otter. You think that you have a problem signing up for classes at Oakhurst? Well, we had 96 kids [out of a school population of 209] sign up for 16 spots!!

Some thoughts from students about the class: From Derin, “I understand that carving is harder than it looks. It’s really fun and we got to use German knives.” [Butz knives] Nailah says, “What I liked about carving is the creativity...I liked that it was a challenge. It was funner than I expected.” Nick said, “What I liked best...is turning a block of wood into something else. I like this because once you are finished you can look back and remember what you started with. Something that was frustrating for me is the changing of the grain in the wood.” [when carving the otter’s belly] “Carving isn’t what I suspected it too be at all. Before I thought that it was super easy and didn’t take much skill. After all I did, I find it fun because you have a feeling of accomplishment when it’s finished.”

[:] Dave Gregory: Let us all keep Dave in our thoughts as he continues to have health problems. He feels pretty good after his transfusions, but soon gets weak. A kind word of encouragement would be appreciated, I’m sure. You can reach Dave at Doris’s 925-862-9903

[:] Mantica Carvers Carving Display: Beatrice Machado, of the Mantica Carvers, is sponsoring a display of her carving group’s carvings at the Mantica Senior Center [corner of Center St and Cherry St.], from March 2 to March 27, 9:00am-4:00pm. Some items that will be featured are canes, fish, and a bobble head collection.

[:] “MONTHLY SHOW & TELL”: Requested format:
 (1) Created by member and completely finished (2) Type of wood/material if known (3) Steps in creating the piece (4) Approximate time involved. **NOTE:** Bring your “share” item(s) prior to our meeting and, if possible, let Bob Kehl know in advance what you are bringing. **Perfection does NOT count, Participation does! See you soon J**

Bulletin Board Cont.

[:] Send/give YOUR NEWS; items WANTED; items FOR SALE; QUESTIONS; INTERESTING INFO; etc to Mike Pocha, Editor and Treasurer, and he will post it here on YOUR Club Bulletin Board for all to see! This is YOUR information site so take advantage of it. ALSO SEEN by OTHER CLUBS ... AND it’s FREE!!!!

This technique can be used to fix and remove dents from damaged furniture, wood floors, etc.

Step 1: What you'll need

- An iron, to steam the dent out of the wood.
- Paper towel
- Water

Step 2: Steam the wood

- Put a dab of water on the affected area. Just enough to cover the dent(s).
- Cover it with your paper towel/rag. At this point, the water will wick through the material. That's fine.
- Now, with your iron on its highest setting, hold it over the affected area and make small movements back and forth and in circles. Press down firmly and continue until your paper towel is dry. It won't take long to evaporate.
- At this point, the wood fibers are absorbing the water and should expand back to where they were originally.
- Continue this process and repeat by adding more water until the dents rise up to be flush with the rest of the material.

Step 3: Sand smooth

At this point, the area around your dents should be pretty smooth. Use some sandpaper to go over the area lightly. It won't take much and you'll be able to get the wood back to looking like nothing ever happened to it!
